

Covid 19 – Site Visit

On Friday 5th June, cabinet members Amar Brar, Helen Harvey, Olivia Rybinski and Leader Ian Harvey visited 12 Hammersmith Grove, 3 Roundwood Avenue at Stockley Park, World Business Centre 4 at Heathrow and The Porter Building in Slough to see the preparations for welcoming back tenants following from the Covid - 19 lockdown. These buildings are all part of Spelthorne Borough Council's property portfolio. All buildings had clear social distancing signs in place, anti-bacterial solution at entrances and throughout and screens to protect reception staff.

WeWork at 12 Hammersmith Grove had put in extra measures because of the many communal areas to stop people from sitting too close. This included blocking off some seats and sticking a green marker on the safe seats. Around all buildings there were constant reminders to sanitise. The management teams of each property were anticipating employees to start coming back to work in the next couple of weeks and were looking forward to getting back to the “new normal”.

Cllr Helen Harvey, portfolio holder for Assets said “the office facilities seem very well prepared for employees returning to work after lockdown, with many posters and floor stickers to remind people to keep their distance. The buildings in the portfolio are really impressive and I look forward to returning to visit when they are full of the people who work there”.
